This mudroom was created as part of a large renovation of an existing 1925 Craftsman house. The renovation included converting an undersized existing one-car attached garage into a new side entry and mudroom with indestructible slate floors.

“Superb.”

—Mick De Giulio

first (tie) / HF: Architecture

This Tudor-style stucco dwelling built around 1916 had suffered bad “updates.” Improvements included a complete exterior stucco restoration and the removal of a deck to allow for a new kitchen/nook/family space with greater backyard access.

“Great colors.”

—Mick De Giulio

HISTORIC RENOVATION/
RESTORATION PROJECT

first (tie) / Architectural Resource / Home Renewal Inc.

The owner of this 1800s Italianate home, listed on the National Register of Historic Places, requested a sympathetically designed two-car garage addition, mudroom, and in-law suite. A breezeway acts as a hyphen between old and new.
